No wait but listen, I'm talking to you  
No wait but listen, I'm talking to you  
No wait but listen, I'm talking to you  
No wait but listen, I'm talking to you

Well I'm the only one here who can save this man's life  
Trust me I've got a Ph.D. and a knife  
You see his wound is to the right no left side, head  
Check his pulse; OMG this man has gone gone gone  
gone gone gone gone gone gone

He has gone gone gone gone gone go gone  
No wait but listen I'm talking to you  
No wait but listen, I'm talking to you  
No wait but listen, I'm talking to you  
No wait but listen, I'm talking to you

First things first, let's retrace this man's steps  
If he didn't walk in did anyone see him come?  
Get your mind out of the gutter, this man is gone  
He could have a wife and kids but now to them  
He's gone gone gone gone gone gone gone gone

He has gone gone gone gone gone gone gone gone  
Gone gone gone gone gone gone gone gone  
Gone gone gone gone gone gone gone gone

No wait but listen I'm talking to you  
No wait but listen I'm talking to you  
No wait but listen I'm talking to you  
No wait but listen I'm talking to you  
No wait but listen I'm talking to you

No wait...(and) gone gone.... (Interluding)

No wait!
