Look at the stars  
Tilt your head up to the universe  
The master of all time  
Can you hear  
The planets talking to the mental patients  
Curled up in thir rooms  
Who do you want to be?  
When it's dark and (indide)  
No one's around (watch out)  
What do you feel  
When no one's around  
But someone's watching over you  
Can ou feel your boy wther away  
When you sit on your all ass day  
Look at yourself  
You've become the less evolved  
Just like everyone else
