Got new boots and lipstick
Got the rest of my life
To buy things that I don't need
Got problems aplenty
Got hope in a jar by my bedside
Got angels looking down on me

I can't strain my brain
Can't take the blame for everything I don't know
I lock the door and at the end of the day

I'm tired and I just don't want go out
Woo hoo
I'm tired and I just don't want to go out
No no
Just one more thing I can do without
Woo hoo
I'm tired and I just don't want to go out

Those sheeple with notebooks
So unique thinking the same
Same hair cuts same club same name
Televisions, Politicians, Mentalism, Evangelism,
Stupidism it's drugging the nation
Keep falling for that same game

I can't strain my brain
Can't take the blame for everything you don't know
I lock the door and at the end of the day

I'm tired and I just don't want go out
Woo hoo
I'm tired and I just don't want to go out
No no
Just one more thing I can do without
Woo hoo

I'm tired and I just don't want to go out

It's really nothing
But I'm not coming out to play
I'm sure it's nothing
But I'm not coming out today

I'm tired and I just don't want to go out

Woo hoo

I'm tired and I just don't want to go out

No no

Just one more thing I can do without

Woo hoo

I'm tired and I just don't want to go out

(Don't want go out no)

I'm tired and I just don't want to go out

(I don't want to go)

I'm tired and I just don't want to go out

(O-out, no no no no no)

Just one more thing I can do without

(Just one more thing I can do without)

I'm tired and I just don't want to go out

(No no oh oh yeah.)
