You got the velvet kiss and the certain to say
That's a brave new world if you like it that way
But I don't want to talk about it, think about it, fight about it anymore
So don't give me that tit for tat epic tough everybody's falling for
Everybody's falling for

Hey, you! Who you talkin' to?
Who you trying to fool when you're fake
'Cause you know that we feel it
Every new mistake is a beautiful weakness all the same
'Cause we're not all the same, oh no

You love my leather hand when my finger is on
Your little kill switch buzz shooting as one
Well we don't have to talk about it, think about it, fight about it, not tonight
Just like that, think of that heart attack, everybody's got a right
Everybody's got a right

Hey, you! Who you talkin' to?
Who you trying to fool when you're fake
'Cause you know that we feel it
Every new mistake is a beautiful weakness all the same
'Cause we're not all the same, oh no

No I don't want to talk about it, think about it, fight about it anymore
Don't give me that tit for tat epic tough everybody's falling for
Everybody's falling for

Hey, you! Who you talkin' to?
Who you trying to fool when you're fake
'Cause you know that I feel it
Every new mistake is a beautiful weakness all the same
'Cause we're not all the same, oh no
