And I really don't think you know who you are so I reach  
out my hand but you've  
Fallen to far and you choke on the love that you  
Claim as your own but in darkness you still feel so  
alone and I wonder when  
You'll realize all the frailties of your life My soliloquy of  
decadent disarray  
The bloody snow from the fallen angels that now  
surround me the candlelight is  
Burning  
Will I ever get what I need or am I destined to crawl  
below  
The candlelight is burning the candlelight has been  
burning for days  
Break break break these are the weapons I forge from  
all the disgust that I  
Hold deep in my heart and I cannot escape it it's  
digging  
Deep and it's paralyzing you look so pitiful and useless  
here  
7 days to realize just what you are the silence is so  
deafening  
And when you fall back down I'll meet you are you  
breathing  
So I'll take it and I'll squeeze it and I'll shove it way  
deep down in my chest  
I'll never give it up for anything I'll never give it up  
Paranoid, paralyzed, all your faith lost inside  
Devastate mesmerize  
And on the day when I realized my own humanity I sat  
down on the sidewalk which  
Ran along the streets which I have dwelled for so long  
And although it was 2am the streetlights were  
illuminating so brightly I  
Could've sworn it was just before the break of dawn oh  
but of all the  
Transgressions that make a man so defeated inside  
each moment lost in time  
I dug my knuckles into the pavement and the wind  
began to blow  
All the love all the fear walk alone she'd a tear you will  
know who you are on

The edge of the earth I am meek we are strong sun  
reflects ambiance broken  
Hearts ruined dreams bound by what we conceive  
devastate mesmerize no more pain  
No more lies you will know who you are on the edge of  
the earth candlelight  
Burns away never thought I'd see the day finally you  
realized  
And every thought that you have resemble the lies that  
you tell yourself  
Delusionary and insolent your manifesting you every  
fear  
Dwelling into your narcissistic state of mind oh but the  
suffering will no  
Longer behold you all your love all your life  
I am your deepest fear infesting all you experience  
searing vibrant within  
These walls and that's where I'll stay forever
