Nothing. No one. No love. Ever.  
I tried to communicate  
Try to affiliate  
No love equals hate  
Even amongst rejects, I'm a fucking reject  
Grab on to desires  
I am an anomaly  
Crippling anxiety  
Innocently watching all you take for granted  
Changes never mattered  
Cursed from the start with nothing

No one  
No love  
Ever  
Fuck you!  
Chronic, this solitude is chronic!  
I torture myself every day and night  
Over what I can't have  
Insanity  
No love  
No one  
Ever.
