At the shows you got something to prove?
Don't like us or what we do
You say hardcore is about "unity and respect"?
Well its not the image you project
Talking shit to a screen, fucking lame,
You know what i mean?
At the shows you don't say shit
With folded arms enforce the pit
Force me back and i won't stop,
This fucking shit has got to stop
I'm fucking sick of it
Go home later pc on
I see that you have left your mark
You really think you know it all?
Well i just laugh and i move on
Has it really come to this?
Point! and! click! core!
Point! and! click! core!
