I'm not afraid of losing sleep
I guess I've always been there

Take my heart?
And make it speak
To anyone who remembers

The way we'd wake up
Look around and smile

And make or break up
Knowing all the while

We're alive
Alive
Alive

So don't stay home tonight
Go out and live you're life?

Don't be afraid of losing sleep
You know I'll always be there

Take this song and let it be
The last time you remember

Space between us, hurting like it does
When everything was killing us because

We're alive
Alive?
Alive

So don't stay home tonight
There's only so much time

I'm not afraid
