"Breaking"

Mirror's been reflecting me
Person I can't stand
I know I'm different
I won't be singled out

I am breaking out
My body's constraining me
I am breaking out
This soul will be free

My true nature's out of view
I'm wolf in sheep-skin
But I'll break that door
And get out in the light

I am breaking out
My body's constraining me
I am breaking out
This soul will be free

I am breaking out
From what's been containing me
I will change my life
And be myself finally

I am breaking out
