Sometimes these words are hard to meet  
Sometimes they come naturally  
And when there's nothing left  
Turn the page and start a new

We're not that good, maybe we'll never be  
Even if we can't play  
This is for you, this is for them  
This is for those who stayed 'till the end

This is the song that meets the end  
No other function than to blend  
This is the song that fills the holes  
And to leave you wanting for more

You think we're joking,  
But the truth is showing  
Closing time's near  
Time for you to recollect  
We are done, what did you expect?

Ova pjesma nosi kraj  
Zato rijeci pozorno slusaj  
Mozda otkrijes tajne  
Ili shvatis da lazemo te

Ove rijeci prazne su  
Obecanje je samo varka  
Lazna nada, samo pjesma  
Nad pjesmama

The song of songs  
Because we can't do better  
The song of all songs  
And we finally reach the end

Made for the end  
Made to descend  
Into the darkness  
And fade out
