What ever happened to little Colleen?
She made some movies doing things obscene
Made a mil, became a cocaine fiend
Deeper demons never seen

Dicks she was taking, money she was making
She didn't realize the toll it was taking
Dicks she was taking, money she was making
She didn't realize the toll it was taking

Playing Shauna brought a sleazy high
But it wrecked herself and made her want to die
Shocking, tragic and they all cried
But will it happen again or will we ask why?

The drugs she was taking, the money she was making
She didn't realize the toll it was taking
The drugs she was taking, the money she was making
She didn't realize the toll it was taking
