Honestly

I know you like to keep your mystery
But there's this girl I know who's sad, you see
And I'd like to show her life ain't always real
Camilo, that's where you come in, my friend
Show me your secrets, show me all of them
I promise I won't say a word again
And as long as I'm alive I'll be the best that I can be

Ca-Ca-Ca-Camilo

I need to see where you made that card go
'Cause I've got some questions about the world I know
And about the difference between real and show,
Camilo

Watch my eyes

Put a coin in your hand now and squeeze real tight
I'll make both sides heads so when you decide
You'll have complete control of your whole life
Camilo, that's where you come in
Be my assistant, be my right hand man
We'll find a place between fact and fiction
And as long as they don't know we'll be the masters of pretend

Caroline,

I saw your disbelief
You're mystified
Understandably
Well so am I

So let's make like enemies and disappear
