This is the day, day when we must face our fears  
And start to praying and clean our sins.  
Hearth beats are strenghten all your dreams will vanish  
Everything man created will perish to the ashes.

This will be the last sundown armageddon waits open  
these chains  
Death is sure I'll make it cruel farwell straight to hell  
Life's a moment but death is for ever farwell straight to  
hell!

This is the day, day when we must face our sins  
And stop the praying and kill our feelings  
Trust, Help, Save everything you can  
Scream, Fight, Help everything you love

This will be the last sundown armageddon waits open  
these chains  
Death is sure I'll make it cruel farwell straight to hell  
Life's a moment but death is for ever farwell straight to  
hell!
