They whispered his name again and again
Listen to the tone like a hollywood persona
An image so big don't you know...
The legend of H. Gane Ciro
Feared by all... feared by all

Stories of violence those images burned my mind
A psychotic peer so close, but unapproachable
This was the godfather in my world
The legend of...

H. Gane Ciro

It was a different place, a different state
Of mind, I had now climbed into an acquaintance role,
I was a different side
A family side, a humor side, his struggles of life
realities
Knife cutting through the human being of...

H. Gane Ciro

I will remember you
