I am aching you are still  
Don't find you arrogant  
Fascinated - Unfulfilled  
While People far away wish me harm - they wish me ill  
Not you, Kiss you on the mouth oh yes - oh yes I WILL!

We are paranoid  
All our friends agree  
Lately I've forgotten you  
Know you'll remember me  
Cause I am spinning round and round like a record in  
your head  
Seizing your subconscious until you wish me dead

Hello LA  
With your mesmerizing stare  
I know I'm not in love with you  
Though I highly doubt you care  
While people crowd your streets - choking on your  
poisoned air  
Not me, kiss your dirty mouth oh yes- oh yes I DARE!

We are paranoid  
All our friends agree  
Lately I've forgotten you  
Know you'll remember me  
Cause I am spinning round and round like a record in  
your head  
Seizing your subconscious until you wish me dead.....
