She's skippin a step on the sidewalk,
Hop skip and a jump while she sings.
She's feeling the joy of divine talk, soft words and a
smile is what she brings.
She's got a thing, she carries it with her. Have you got
the thing?
How do you know? How do you move now, how do you
roll?
Tell me what's in your soul?

What ya doin'? Are you groovin'?
What ya doin'? Are you down with the light?
It's really something when you're moving, when you're
groovin right.

He's humming a tune, got the rhythm.
Bip bop and a bap is what he knows.
He's flippin a coin to the blind man. He's bringin the
swing wherever he goes.
He's got the vibe, livin the high life. Have you got the
vibe?
How do you know? How do you move now, how do you
roll?
Tell me what's in your soul?

What ya doin'? Are you groovin'?
What ya doin'? Are you down with the light?
It's really something when you're moving, when you're
groovin right.
