I dream a dream
A dream of love
A dream of dreams from far above
A waking light that brings to life
A seed that grows with you through life

I remember dreams of hope
A wish of love
A peaceful place
From far above

I remember dreams of hope
A wish of love
A peaceful place
From far above

A dawning dream
Like rising sun
Awakens light that we become
So now believe in what you've seen
Embrace your life and dream your dream
