I don't feel a part of this nation
I don't want to hear your complications
Why reduce it all so small?
Why try to take control of it all?

We demand! Justice!
Independence! Only one flag!

I'm sorry Mr President if you have lost some votes
We try only to hear to the soul
Are you sure of satisfaction in your life?
You know that everybody's gonna die?

We demand! Justice!
Independence! Only one flag!

I don't think when you take your last breath
What value will your swollen wallet!
This is our straight edge pride!

Only one flag!
