Lots of water passed under the bridge
Since the cut and paste old fanzine
Shows' flyers with paper and glue
It's easier today, the web helps you
Typing on topics, you're also a star
Hiding behind a screen knife stabbed on my back
Lots of opinions but only you have the rights
At the shows you're on my side, a knife on my back
Building up a personality, but you're a loser
Your fucking words are mostly fake, just a troll you are
Hiding and causing fights donâ€™t make you cooler
Your internet accountâ€™s just a waste of moolah
