

## Shake It Up

### "Our Generation"

Visit "[Our Generation](#)" on MotoLyrics.com

Rock rock it we rock rock rock it (4x)

Get it right, time to shine, gotta step up cause' it's our  
night  
Cheers cause were here  
Starting a new page with no more fears  
Yeah

We can make the change it's our generation  
Nothings in our way, it's our generation  
Yeah  
You gotta start with you helping nobody else  
You gotta raise your voice, say what you feel  
Time is in our hands, it's our generation

Rock rock it we rock rock rock it (4x)

Share the loud through the crowd  
Together we got this right here right now  
Cause it's ours on our own  
We found a connection that feels like home

We can make a change it's our generation  
Our generation  
Nothings in our way, it's our generation

You gotta start with you helping nobody else  
You gotta raise your voice, say what you feel  
Time is in our hands, it's our generation

Shoao (3x)

It's our generation

We can make a change it's our generation  
Nothings in our way, it's our generation
