The Star I R by Shake It Up I'll always be honest
I'll always be proud
A long way from heaven
Then I turn around
And here I am
Ready to sink or swim now

With my back against the wall
I stood tall, everything around me
Magically resolved, problem solved
Nothing I can see is standing in my way
Open gate to the future, yeah
I'm ready, I'm ready, I'm ready

I'm ready to jump
I'm ready to ride like a racecar
I'm ready to fly, I'm ready to
Feel like, feel like, feel like
The star I are

I'm ready to get what I came for
I'm ready for more
I'm ready to feel like
Feel like, feel like
The star I are

Maybe I'm crazy and I can't complain
The fear doesn't faze me
I ain't gonna change
'Cause here I am
I'm finally in my skin now

You can dream when you're awake
Give and take, baby most of all
Imagine every day in the way
That you're hoping for
I'm riding on the wave
Filled with faith
Getting closer now
I'm ready, I'm ready
I'm ready, I'm ready

I'm ready to jump
I'm ready to ride like a racecar
I'm ready to fly, I'm ready to
Feel like, feel like, feel like
The star I are

I'm ready to get what I came for
I'm ready for more
I'm ready to feel like
Feel like, feel like
The star I are

The star I are

If I could wish upon tomorrow
Tonight would never end
Let's make it last forever
And live it again and again

I'm ready to jump
I'm ready to ride like a racecar
I'm ready to fly, I'm ready to
Feel like, feel like, feel like
The star I are

I'm ready to get what I came for
I'm ready for more
I'm ready to feel like
Feel like, feel like
The star I are

I'm ready to ride like a racecar
I'm ready to fly, I'm ready to
Feel like, feel like, feel like
The star I are
