"You And I"

Visit "[You And I](#)" on MotoLyrics.com

When I look at yo I feel right
Then the first I saw your face
Searching other moments
And then you said I was very pretty

CHORUS:
You and I
Laughing at the same time
Getting other pieces of our hearts
When you and I

Second chance we walked together in the park and you
said that it was very first time I look at you and you look
at me and...
It was our very first kiss

REPEAT CHORUS*

Oh baby... oh... woh...
Life is better good in time!

REPEAT CHORUS*
