She reached up with a steady hand and turned his
picture to the wall
It looks like forever is finally over after all
She slips into that dress she borrowed she likes the
way it feels
She's been his angel much too long tonight she's Hell
on Heels
No fool, no more, gonna be the woman he won't see no
more
All through, all done, tired of doing someone when it
ain't no fun
Back to being real, lord she's Hell on Heels
Girl don't have much room to dream when she's under
someone's thumb
She sees a good time pass her by and wants to get her
some
The first step is the hardest it's called making up your
mind
She may not know what's up ahead but she knows what
she left behind
No fool, no more, gonna be the woman he won't see no
more
All through, all done, tired of doing someone when it
ain't no fun
Back to being real, lord she's Hell on Heels
And Cinderella has found a party seems tonight she's
gonna burn one down
Look out everybody on the neon side of town
Light 'em up
No fool, no more, gonna be the woman he won't see no
more
All through, all done, tired of doing someone when it
ain't no fun
Back to being real, lord she's Hell on Heels
Yeah, she's Hell on Heels
Lord she's Hell on Heels
Yeah yeah
