White lace,promises,candle in the dark
You've done this before,now you hide your heart
Here you go again,will it be the same?
You're getting much to old to play this foolish game

Chorus:
Don't you hold back
Don't you quit before it's done
It's not too late
Give your lovin to someone
Open up your heart and let it run

Love's elusive,that's the chance you take
No one's perfect,we all make mistakes
Love is risky,you might lose it all
But you won't find out if you don't take the fall

(Chorus)

White lace,promises,candle in the dark
You've done this before,now you hide your heart
Love is risky,you might lose it all
But you won't find out if you don't take the fall

(Chorus)

Open up your heart and let it run
Open up your heart and let it run
Open up your heart and let it run
