It all seemed to disapper  
Like it was never really here  
This gets so emotional  
Nothing left to fear  
The pull of ocean tide  
Teardrops hung out to dry  
I don't want to let go  
Not this time  
Bring back you lovin  
I'm out here alone  
Bring back your lovin  
Don't say our love  
Is set in stone

Don't turn away from me  
Our love is our energy  
Baby  
Don't leave me in silence still  
Trapped in my own free will  
Baby

You shine a light  
That ignites in me  
And your the only one right now  
Who can save me  
So come save me

Come save me  
Baby  
Come save me

You shine a light  
That's ignites in me  
And your the only one right now  
Who can save me  
Baby
