[VERSE 1:]

My homie since knee high  
We came up on the south side  
Where you had to beat the street lights home  
We got into some street fights  
But the next day we be right back get it all  
Wherever there was me, there was you  
And we were like crew  
Straight from junior high school  
Then you messed it all up  
Started pushing up  
Kissed me on the cheek  
And I fell in love

Shorty's a little taller now  
Into big things, he's a baller now  
His heart never changed  
I can see he's still down  
I can't forget him (No no no no)  
More than his voice is changing now  
All that I see is rearranging now (Now)  
It just ain't the same  
Catchin feelings now  
I should tell him (Yea)

[CHORUS:]

You knew you were the boy next door (Next door)  
Don't want to be my homeboy no more  
Saw something that I never saw before  
I think he wants to be my baby, baby  
Been thinkin bout him all my life (My life)  
Now I see him in a whole new light  
Something about it feels so right (That's why)  
I think he wants to be my baby, baby

[VERSE 2:]

Every night when we get home  
Undercover talking on the phone  
Here comes my mother  
It's way too late  
Might get in trouble  
My heart can't wait (So much to take)

Writing till my hand cramps up  
4 pages saying I'm in love (I got a crush)  
Can't get you off my mind (Can you pick me up baby)  
I'm sure I'll be fine when I look into your eyes

Shorty's a little taller now  
Into big things, he's a baller now  
His heart never changed  
I can see he's still down  
I can't forget him  
More than his voice is changing now  
All that I see is rearranging now  
It just ain't the same  
Catchin feelings now  
I should tell him (Gotta tell him that I love him)

[CHORUS]

[BRIDGE:]  
Chocolate covered candy kisses  
They keep me reminiscing  
All I want is what your giving  
Nothing like your affection  
So in love and you're the reason  
There's no more lonely season  
Make me love you, drive me crazy  
Think I wanna be your lady  
[Repeat]

Oh-we-oh  
Oh oh oh (Don't wanna be my homeboy no more)  
Oh-we-oh-we-oh-we-oh  
Oh oh oh  
Oh-we-oh-we-oh-we-oh  
Oh oh oh  
Oh-we-oh-we-oh-we-oh (Why why why why why)  
Now homeboy wants to be my baby, be my baby, be my  
baby  
Oh-we-oh  
Oh oh oh (He don't wanna be my homeboy no more)  
Oh-we-oh-we-oh-we-oh  
Oh oh oh  
Oh-we-oh-we-oh-we-oh (No more)  
Oh oh oh  
Oh-we-oh-we-oh-we-oh (Said he)  
Now homeboy wants to be my baby, be my baby, be my  
baby  
(Wants to be my baby now, now, now now now)
