Yeah  
Oh no  
Everybody's got a place for me but where do I fit in?  
If every morning is a brand new hand just what colors  
will I use today to  
Fill it in?  
And I've got tendencies to want to draw outside the  
lines  
So will you still love me even if my castle ain't built by  
your design

All of the scene, I see in the mirror it's so disconnected,  
but that's if I  
Let it  
All of the demons that I'm fighting daily, I won't let  
them get me no no  
Cause life is for the fearless nobody wants to hear this  
It's all about the madness you make beautiful  
If love is what you're afraid of then it's time to get  
creative  
Just you and that old paintbrush, make it beautiful  
Make it beautiful

I don't like Mondays I'd rather stay in bed  
Sometimes it's safer underneath my blanket with the  
dreams inside my head  
And I've got tendencies to see things black & white  
But that gray area seems frightening and exciting part  
of life

All of the scene, I see in the mirror it's so disconnected,  
but that's if I  
Let it  
All of the demons that I'm fighting daily  
I won't let them get me no no  
Cause life is for the fearless nobody wants to hear this  
It's all about the madness you make beautiful  
If love is what you're afraid of  
Then it's time to get creative  
Just you and that old paintbrush, make it beautiful  
Make it beautiful

Bold strokes, strange shapes, don't make sense all the  
time  
Bright shades, let your imagination run wild  
All of these choices, but which one to make  
And all of these boundaries, I'm breaking away and I  
can't wait

Life is for the fearless nobody wants to hear this  
It's all about the madness you make beautiful  
If love is what you're afraid of  
Then it's time to get creative  
Just you and that old paintbrush, make it beautiful  
Make it beautiful

Cause is for the fearless and it's up to you if you make  
yours beautiful
