Hey what's your story  
Hate to see ya lookin worried  
You know you can tell me  
Cause I am understanding  
Would you mind sharing  
What's bothering or happening  
Turn that frown upside down  
What's with all this madness

Is it somethin (somethin), somethin I should know?  
(Somethin I should know)  
Is it somethin (somethin), somethin I should know?  
(Somethin I should know)  
Cause I feel like (feel like) you should have some hope  
Then I feel like (feel like) you should have some hope  
Yeah, well

If things don't go your way  
Use my shoulder to lean on  
If things don't go your way  
Use my pillow to lay on  
If things don't go your way  
Use my shoulder to cry on  
That's what friends are for

I know it's a struggle  
You gotta flex your muscle  
Don't be scared to hustle  
There's no reason to wrestle  
Take your time  
Clear your mind  
You know I am here for you  
Don't be scared  
Pour out your heart  
I'll be there wherever you want

Is it somethin (somethin), somethin I should know?  
(Somethin I should know)  
Is it somethin (somethin), somethin I should know?  
(Somethin I should know)  
Cause I feel like (feel like) you should have some hope

Then I feel like (feel like) you should have some hope  
Yeah, well

If things don't go your way (Your way, your way, your way)  
Use my shoulder to lean on  
If things don't go your way  
Use my pillow to lay on  
If things don't go your way  
Use my shoulder to cry on  
That's what friends are for

You can tell me (Tell me, tell me)  
I'll help you when you help me  
Oh baby I'll listen to you  
Everything you're goin through  
I swear I will  
I swear I will  
You can tell me (Tell me baby)  
And you know you can trust me  
Baby I'll listen to you  
And everything you're goin through  
You know I will  
You know I will

If things don't go your way  
Use my shoulder to lean on  
If things don't go your way  
Use my pillow to lay on  
If things don't go your way  
Use my shoulder to cry on  
That's what friends are for  
If things don't go your way  
Use my shoulder to lean on  
If things don't go your way  
Use my pillow to lay on  
If things don't go your way  
Use my shoulder to cry on  
That's what friends are for.
