Ohhohohoho my cries become a curse
Ohhohohoho my words like swords in blood
Ohhohohoho my cries become a curse
Ohhohohoho expose the traitors

From all this words and confidence
No one, would speak the truth.
Everyday the fucking same.
Their life is built on lies
And they are choking through
All the hands, which seemed in pain

Ohhohohoho my cries become a curse
Ohhohohoho my words like swords in blood
Ohhohohoho my cries become a curse
Ohhohohoho expose the traitors

Sharks in my Mouth, Wolves in my Heart
An they will touch and fight.
No mercy for the fucking scum.
{Control comes} from the top
And thousand fists against
It won't be long before they fall
{It won't be long before they} fall

[Solo]

It won't be long before they fall

Ohhohohoho my cries become a curse
Ohhohohoho my words like swords in blood
Ohhohohoho my cries become a curse
Ohhohohoho expose the traitors
