This is the age of make-believe
Or a reality series
Television, murder city dreaming of tomorrow
Am I alive or fantasy?

Give me murder, give me loss
Turn this city into dust man
My brain is melting and it smells like a volcano

Japanimation surgery
Drinking nuclear energy
Reservoir spewing toxic shout there's no tomorrow
Drinking nuclear energy

Give me murder, give me loss
Turn this city into dust man
My brain is melting and it smells like a volcano

Give me murder, give me loss
Transistors
Give me murder, give me loss
Transistors

Give me murder, give me loss
Transistors
Give me murder, give me loss
Gone wild
