Verse

Girl, look what you've done to me  
This pain that I feel goes deep  
And I'm lonely, I can't eat, can't sleep  
It hurts so much 'cause I thought you would be

Chorus

Someone to love  
Someone that cares  
Someone who'd always be there  
Someone to laugh with  
Someone to cry with  
Someone to spend my whole life with

I thought you'd be the only one I could call my own  
But I have no choice I gotta let you go  
I really need someone  
I thought you'd be the one  
Someone for me

Verse

Love I guess was not meant to be  
It nearly took us six years you see  
But it's only best for you and me  
Still it hurts so much ,cause I truly believed you were

Chorus

Someone to love  
Someone that cares  
Someone who'd always be there  
Someone to laugh with  
Someone to cry with  
Someone to spend my whole life with

I thought you'd be the only one I could call my own  
But I have no choice I gotta let you go  
I really need someone  
I thought you'd be the one  
Someone for me

Hook

Baby, down the road we we're weak  
Time apart is all that we need  
Girl if it's meant to be  
Then in time we will see  
Who knows, maybe you'll still become  
Someone to love

Chorus

Someone to love  
Someone that cares  
Someone who'd always be there(someone to be there)  
Someone to laugh with  
Someone to cry with(don't cry)  
Someone to spend my whole life with

I thought you'd be the only one I could call my own  
But I have no choice I gotta let you go  
I really need someone  
I thought you'd be the one  
Someone for me

Chorus

Someone to love  
Someone that cares  
Someone who'll always be there  
Someone to laugh with  
Someone to cry with  
Someone to spend my whole life with

I thought you'd be the only one I could call my own  
But I have no choice I gotta let you go  
I really need someone  
I thought you'd be the one  
Someone for me

You were someone to love  
Someone for me babe
