Well I've been just I've been a bug unknown
I know all about it but my heart is strong

I've been away been running to save my head
Yeah the warrants out and I'm almost there
No ones said what I've already said

Got to get away
There's a warrant on my head
Got to get away
They want me alive or dead x2

I've thought a lot about the way fight
Come through the phone lines, not man enough to face
me

I can stop or argue about what they say
Yeah the warrants out and I'm gonna pay
I said what I'm gonna say

Got to get away
There's a warrant on my head
Got to get away
They want me alive or dead x2

He was like a fake friend who warms you up and takes
you in
You mouth the words but no sound comes out

And he was like your best friend who wakes you up and
takes you in
You mouth the words and sound again

Don't know better
Don't know better

Got to get away
There's a warrant on my head
Got to get away
They want me alive or dead x4
