Hopefully, you'll be fine without me by your side.
Hopefully, I will too.
Times have changed, now I, I don't even know myself.
Do I even want to?

You can breathe.
Well I, I will suffocate myself.
What is it about you.
You can breathe.
Well I'm out of oxygen tonight.
What is it about you... that leaves me
Breathless
You leave me so
Breathless
You leave me so
Breathless
And now I can be, out of sight, out of mind, out of sight
of you.
Oh

You believe in lies, like the one you told yourself.
With your heart out on your sleeve.
Make a note to say, it's not over till it's gone.
Is there time for you and me?

You can breathe.
Well I, I will suffocate myself.
What is it about you.
You can breathe.
Well I'm out of oxygen tonight.
What is it about you... that leaves me
Breathless
You leave me so
Breathless
You leave me so
Breathless
And now I can be, out of sight, out of mind, out of sight
of you.
Oh
