Just stare me down with those electric eyes
No matter how hard I try,
I can't escape that gaze tonight
That girl's up in the atmosphere
That girl's up in the atmosphere

I'm hypnotized by the way she moves
Baby girl please help me soon,
Imma take you to sun and the moon
That girl's up in the atmosphere
That girl's up in the atmosphere

[Chorus]

And I've been catching myself thinking of it
It's 3 in the morning,
Every day I chase after her
But I can't catch lightning
Catching myself thinking of it
It's 3 in the morning,
Every day I chase after her
But I can't catch lightning

No I can't catch lightning

She'll make you believe anything she wants
Make you think that you're the one
She will keep you there
That girl's up in the atmosphere
She's way up in the atmosphere

[Chorus]

And I've been catching myself thinking of it
It's 3 in the morning,
Every day I chase after her
But I can't catch lightning
Catching myself thinking of it
It's 3 in the morning,
Every day I chase after her
But I can't catch lightning

No I can't catch lightning
Oh I can't catch lightning

Yeah, I can't catch lightning

Just stare me down with those electric eyes
No matter how hard I try,
I can't escape that gaze tonight
That girl's up in the atmosphere
That girl's up in the atmosphere
That girl's up in the atmosphere
She's way up in the atmosphere

And I've been waiting, waiting, waiting for you
Anticipating
Chasing after things that you do
But I can't catch lightning
Waiting, waiting, waiting for you
Anticipating
Chasing after things that you do
But I can't catch lightning

No I can't catch lightning
No I can't catch lightning
Oh I can't catch lightning
I can't catch lightning.
