Write a hook write a verse write a chorus write a melody
Can't express how I feel without singing it the right way
I'm doing better now I'm doing good
I'm doing all the things I know I should

Will I find a way to tell her how I feel about her?
Will she come to me and will she read my mind?
Will she read my mind?

He's the one in my dreams but I can not tell him anything
Can't express how I feel even if it is the right way
I'm doing better now I'm doing good
I'm doing all the things I know I should

Will I find a way to tell him how I feel about him?
Will he come to me and will he read my mind?
Will he read my mind?

Hey everything I need is right in front of me
Here I go here's my burst of emotion
Here I go now I'm telling you
swallow all of my pride for the first time
Don't know what to say

Will I find a way to tell her how I feel about her?
Will she come to me and will she read my mind?
Will she read my mind?
Will I find a way (to tell him how I) how I feel about her?
Will she come to me (and will he read my mind)?
Will she read my mind?
