Fresh out the oven, fresh out the oven, fresh out the oven,
fresh, fresh out the oven
Fresh out the oven, fresh out the oven, fresh out the oven,
fresh, fresh out the oven

Busting down doors, busting down tours
You were still in wall mart, busting down floors
Need help? I could show you how to bust down yours
Been around the world twice, third time for the score
Now I'm fresh off the oven, so hot get the baker smith
Plus we're in the Staple Center, sitting where the Lakers sit

Danny G beats, Danny G video, the mad tv
... up from a year ago
Now we're on tv, put an m in front of that
Cloud and I'm fly high where the ruler at
Fresh as for breeze, fresh like whatever
I guess is safe to say that we're fresh all together
They keep it a hundred, we keep it ten billion
Dreams are the front door Porsche Louie missions
Fans in Japan, nah I think that was Tokyo
Lovers out in Paris can't forget about Toronto, yo
Fresh out the oven, chasing my tomorrow, chest full of... big bag of product
Fresh out the oven, chasing my tomorrow, chest full of... big bag of product
Fresh out the oven, fresh out the oven, fresh out the oven,
fresh, fresh out the oven
Fresh out the oven, fresh out the oven, fresh out the oven,
fresh, fresh out the oven

Back to the oven, back to the kitchen
Cooking up a souffle, you can do the dishes
We was making pop art, while all you popped
Aiming at the pop charts, watching how the clock tick
Shouts to Gallardo, shouts to success
Too many names, I ain't shouting out the rest
Chef boy... whipping Betty Crocker

I bake it, they love it, my temperature be proper
My mind in the million used to dream of hundreds
Side effects spinning days and nights in the oven

Miracles that we whip, last past May, yoh
Flights to your beezee, working on a pay roll
Hustle to the day flow, grime through the night shift
All I see is dots then I start connecting them
Life since day one, now I'm on a dose clip
We gonna do the damn thing
You all can witness this
Fresh out the oven, chasing my tomorrow, chest full
of... big bag of product
Fresh out the oven, chasing my tomorrow, chest full
of... big bag of product
Fresh out the oven, fresh out the oven, fresh out the
oven, fresh, fresh out the oven
Fresh out the oven, fresh out the oven, fresh out the
oven, fresh, fresh out the oven

I'm boss, I'm a leader, can't get in the speakers
Word play fly hear them...
Paper plane stamps passports, check her visas
Flies in the heaven, gotta see it to believe it
Start, drop, roll for the evil side of money
Flip a perfect penny to a stack in the moment
Spread my wings let the wind dance amongst it
Fresh out the oven you can smell us while we're coming
Fresh out the oven, chasing my tomorrow, chest full
of... big bag of product
Fresh out the oven, chasing my tomorrow, chest full
of... big bag of product
Fresh out the oven, fresh out the oven, fresh out the
oven, fresh, fresh out the oven
Fresh out the oven, fresh out the oven, fresh out the
oven, fresh, fresh out the oven.
