I'm dying on the night of the clouds
Dancing with the ghosts, right after disaster
In the end of a fuckin' tragic summer
Feel the midnight wind and watch the burning star

They're standing over
A dead bridge and trapped
On a prayer with black mask
Under the shadows

Destination of an after life
Where closeness to god is defined as heaven
And for those who have died
Exist in an after world

They're standing over
A dead bridge and trapped
On a prayer with black mask
Under the shadows

Spilling every lie you've spilled before
But I'm not forgiving you
The breathing has got too the hard
Lie in name of gospel

Spilling every lie you've spilled before
But I'm not forgiving you
The breathing has got too the hard
Lie in name of gospel

For a last and first breath
I don't know who I'm anymore
And my hope is dying day
Hold my breath and make me sick

For a last and first breath
I don't know who I'm anymore
And my hope is dying day
Hold my breath and make me sick

Moving faster!
Oh!

I'll miss your laughter, greetings, and your smiles
Cause nobody here, just silence that conquer

I was locked all day in the summer heat
In a small brown house in suburban street
With a skateboard and my shit guitar (my shit guitar)
I'd dream all day that they would get me far (get me far)

I wanna have the same last dream again (again)
The one where I wake up and I'm alive (alive)
I wanna have the same last dream again (again)
The one where I wake up and I'm alive (alive)
I wanna have the same last dream again
The one where I wake up and I'm alive
I wanna have the same last dream again
The one where I wake up and I'm alive
I wanna have the same last dream again
The one where I wake up and I'm alive
I wanna have the same last dream again
The one where I wake up and I'm alive

I'll miss your laughter, greetings, and your smiles
Cause nobody here, just silence that conquer

If you're gonna fall
I'll let you know
That I will pick you up
Like you for me
To recite this all
To recite and destroy this all
Recite and destroy this all tonight
Oh!

If you're gonna fall
I'll let you know
That I will pick you up
Like you for me
To recite this all (to recite this all)

Tears are faith, smiles are take
Tears are faith, smiles are take

I cannot live, I can't breathe
Unless you do this with me
I cannot live, I can't breathe
Unless you do this with me
I cannot live, I can't breathe
Unless you do this with me
I cannot live, I can't breathe

Unless you do this with me

My eyes are opened up with pure whitelight
I'm the first to know, my dearest girlfriend
My eyes are opened up with pure whitelight
I'm the first to know, my dearest girlfriend
Oh!

Spilling every lie you've spilled before
But I'm not forgiving you
The breathing has got too the hard
Lie in name of gospel

Spilling every lie you've spilled before
But I'm not forgiving you
The breathing has got too the hard
Lie in name of gospel

I'll miss your laughter, greetings, and your smiles
Cause nobody here, just silence that conquer

For a last and first breath, I don't know who I'm
anymore
For a last and first breath, I don't know who I'm
anymore
For a last and first breath, I don't know who I'm
anymore
For a last and first breath, I don't know who I'm
anymore
