Counting down the foking time to an end
Counting down the foking time... the end
Don't let your foking fear comes to you
Prepare yourself right now.

Counting down the foking time to an end
Counting down the foking time... the end
Don't let your foking fear comes to you
Prepare yourself right now.

Brace yourself!
Brace yourself!
Brace yourself!
Brace yourself or you'll die!

They fear of their reflection, hiding from eternity
Keep running and they keep denying.
Trying to figure out what they've been missing
The signs from god already shown
The whole world will going down.

There's no need to runaway.
Cause you'll never find away.

Dark black pasts always hunting you
Just think straight, will you commit suicide?
Will you always shows fake smiles?
Mankind have to know what's real.

There's no need to runaway.
Cause you'll never find away

Nobody guarding your back, it's all a front
No kind of life, no kind of life
Nobody guarding your back, it's all a front
No kind of life, no kind of life

Cold...
Your blood is freezing, your friends are wasted
Empty shells and running naked
Cold...
Your blood is freezing, your friends are wasted

Empty shells and running naked

And when the lights of universe
Suddenly turns into the darkness
And when the lights of universe
Suddenly turns into the darkness

Trying to figure out what they've been missing
The signs from god already shown
The whole world will going down.

There's no need to runaway.
Cause you'll never find away.

Regret all we've had living
Right now, right now!

Stop hurting yourself and keep struggle
You will know where to go and you will know what to do.
Stop hurting yourself and keep struggle
You will know where to go and you will know what to do.
