

Crimson Come Home "The Haunted"

Visit "[The Haunted](#)" on MotoLyrics.com

we are haunted by things we can't forget; we are
haunted
there is a ghost, the one i miss the most. you are my
ghost

we are haunted by things we can't forget; we are
haunted
there is a dead kiss in my head. this kiss is not dead.

and all i wanted to tell you, come on home
and all i wanted to tell you is come on home

come on home

save me, come raise me my love
and move my body with your love

we are the haunted
ghost don't forget
we'll stay together
forever and ever

haunted, haunted, haunted

be my suicide, be my suicide love

come on home, come on home

come on home
