Record companies have become dictators
Creating criminals that are thrown into hell
Patriotized as the evil
They are purposed to show a demonic world
There is no escape what I deem putrid demons

This government has given them the powers to torture
Everyone can become tangled in never ending attacks
Suing is one of their powers as the jails

The light has been shut from those accused
Brainwashed people conform to play apart in this play
Their power is gaining bigger and they strike at any
chance
Suing is one of their powers and they abuse at any
chance

Powerful parasites have demanded the world to pay
These companies have commanded the entire world
Why not jail everyone?
It's not possible
If it were to happen there would all chaos
Unleash it's fury to kill their power and leave them
dead
