

Emperors Of Destruction

"Angel Of Death"

Beaurucacy is today's devil
Capitalism when over-the-top is the horrible killer
Jailing the ones on their false terms
They must be killed or it's us

Disguised creatures who act golden kill all
This world is on a racetrack for death
Money and politics are killing what's real
Society's corpse still remains but it's soul was long
dead

Compassion has been assassinated and replaced with
mass murder
But this generation will not care for our death
They will continue with sins and the ribcages of greed

This world is now owned by menions
They will surpress real liberty
Liberty is dead and tolitarianian beliefs now hold
