More laws are added to destroy freedom
The balance favoring tyranny over liberty
With so many
Destroying personal freedom

As time quickens we forget
That this land was meant for freedom
Recent wars weren't meant to defend freedom
It was a lie
While pretenders wage for more security

This Anti-Humanistic Balance is our disgrace
Politicians forget our foundation of liberty
They state that security is better than liberty
Tyranical menions roam to furthur their cause

So many laws now violate our privacy
How can this crime go on
By our trusted government
We are prey by anti-liberty politicians

This Anti-Humanistic Balance is our disgrace
Politicians forget our foundation of liberty
They state that security is better than liberty
Tyranical menions roam to furthur their cause
