

Emperors Of Destruction

"Hope Is Few"

In utter destruction
Chaos reigns
Unleashed by the downpour of destruction
Now reigns the land of utter destruction
The lights have been silenced
Forever to reign
Forever to silence

Lights are now weakened by the reign of destruction
Hope is few
Hope is few

There's nothing to do
Confusion lit by the candle of destruction
There's no weapon to fight devastation
Reigning beyond the silence

Lights are now weakened by the reign of destruction
Hope is few
Hope is few

Unleashing it's charged path of destruction

Forts damaged by the massive power of destruction
The wall was strong with the force that couldn't be torn
Words couldn't have understood the awesome power
Pain was squeezed from the mantle of destruction
To feed the awesome power of devastation
