

Emperors Of Destruction

"Igniting The New Destruction"

Devestation remains
Reigned among us
Converting the sane
Destruction has yet to become
The mastermind of devestation

The reigning of disaster
Excites evil forces
Igniting the new destruction
Never mind the brink of destruction

Cities are collapsed
By the forces of nature
Bells the next disaster that will come soon
Free us from the the next disaster

The reigning of disaster
Excites evil forces
Igniting the new destruction
Never mind the brink of disaster

It must be avenged
Cannot be defeated
Begging our next destruction
That will not accept defeat
