Narcissism creates a false sense of security
Emotional damage takes it's daily toll
The surface trying to seem normal
The core ravaged by a reckless beast

Insecurity is the sickness
Ravaging hope and taking a toll
Pushing the mind into a raining darkness
The body is an eternal hostage

This sickness takes me further from hope
To the point of no return
A parasite returns only a sense of insecurity
A tombstone rises in sight of my suffering

Insecurity is the sickness
Ravaging hope and taking a toll
Pushing the mind into a raining sickness
The body is an eternal hostage

Demons have deep control of the mind
A useless fight will only strengthen their fight
The deepest suffering from them can't die
Insanity is the product of a dead mind

Insecurity is the sickness
Ravaging hope and taking a toll
Pushing the mind into a raining darkness
The body is an eternal hostage

A cure is forever dead
A fight is forever there
To frighten demons with blinding light
To battle the nemesis to it's roots

Insecurity is the sickness
Ravaging hope and taking a toll
Pushing the mind into a raining sickness
The body is an eternal hostage
