### "Not To Forgive"

Denounce this  
Don't let yourself be bad  
Let yourself come back  
To the world you knew  
To fight the insanity of the modern world

Silence will not shield us from disaster  
Some are destined not to forgive the disasters

When your bad this world turns with you  
Accept your habits then turn once time  
Earth may quench for disaster  
But was once you begged for peace  
Fight the insanity of the modern world

Silence will not shield us from disaster  
Some are destined not to forgive the disaster
