"We Must Rebel"

Destroy this conservative ideology
Engage in direct combat with destroyers of liberty
Diseased minds are the only ones who accept this
Victims shall no longer suffer
Rebellion is the solution
To cut the root of this evil

We Must Rebel
A revolution is our weapon to embrace
Elected officials embrace this ideology of evil
Any obedience to them will lead to losses
These politicians are in the silent war

Conservatives declares a war on pleasure
Their phony fight is to create gloom
We cannot accept this future
For their cause is to bring down liberty
Put up arms against this disease
A total rebellion is our will to change

We Must Rebel
A revolution is our weapon to embrace
Elected officials embrace this ideology of evil
Any obedience to them will lead to losses
These politicians are in the silent war

Conservative ideology must be destroyed
Liberty's ideals will eternally reign
Our roots shall purge all the evil
The cause of the rebel shall reign
