"Be Awake"

Visit "[Be Awake](#)" on MotoLyrics.com

While the wounds are still healing
I'll be on a break
Everybody keeps saying
Nothing's going to change

Well are you going to be there, and be awake?

Want the world to stop fading
Fading far away
All the rules of our making
These words washed away

Shadow men keep on taking
Taking it all away
By their rules we're all slaves
Yet at least I'm awake

Well are you going to be there, and be awake?
Trying now so hard to see them
Trying now so hard to see
