The wrong words are used to describe young women
And Young men for the purpose of ageism but this
Is the same as homophobia and racism because words
Are used against those groups to degrade but this time
Government is using ageism in the form of oppression

Ageist terminology is a reason why oppression against
The young has occurred because a lot of the rest
Label the young as incapable to be responsible so say
Ageism

I vote no on the referendum in California which will
Determine if marijuana is legalized because since yes
Will further oppression against those 18 to 20 because
They're called minors which is ageist terminology
Too much compromise has come with marijuana

Ageist terminology is reason why oppression against
The young has occurred because a lot of the rest
Label the young as incapable to be responsible so say
Ageism
Surrender
