

Rebels Against Oppression

"Create Tension"

There's a staggering amount of oppression
Against a group that's the most oppressed
A plague of laws keep those 18 to 20 stuck
To tyranny regarding alcohol with small hope
Acceptance to this drinking age is too high

There's no problem with those aged 18 to 20
Responsibly drinking alcohol so don't support
The oppression against adults 18 to 20
Create tension so that evolution will set us free

Despite police officers and organizations
Enforcing and justifying this oppression
No one should help the police to enforce this
There won't be a last time of activism until
The drinking age is 18 with responsibility

There's no problem with those aged 18 to 20
Responsibly drinking alcohol so don't support
The oppression against adults 18 to 20
Create tension so that evolution will set us free
